

# PE Portfolio Assessments

## The Problem:

Increased risk and cost due to unforeseen technology debt, poor security posture and inefficient capability and maturity of people, process and technology.

## The Solution:

Assessment results that highlight the companies capability and maturity of their people, process and technology.

## The Benefits:

- Receive insight and clarity on the organization's technology stack, applications and security posture risks.
- Identify high value targets and assets.
- Determine the amount of technology debt.
- Knowledge of capability and maturity of people, process and technology.
- Receive recommendations for needed business integrations and investments.
- Receive roadmaps for improvement.

## What's Next:

Most assessments can be completed within a 3 to 4 week period with minimum impact to your organization.
